Web Directory Search Engine

Search engine VS Web Directory. There exists a difference between search engine and web directory which are explained briefly. Meaning: When you utilize a search engine to look the web, you are seeking just the web pages and web objects like PDF files that the search engine has recognized at a given point in time.

Difference between Search Engine and Web Directory ...

Web directories provide links in a structured list to make browsing easier. Many web directories combine searching and browsing by providing a search engine to search the directory. Unlike search engines, which base results on a database of entries gathered automatically by web crawler, most web directories are built manually by human editors ...

Web directory - Wikipedia

Search engines and directories are both tools people use to find information on the Web. The difference is in how they get and organize their information. Search engines use little programs called spiders or bots that scour the Internet, follow links, and bring back this information to the search engine's index.
