Working on a cat c18 marine engine where is the thermostat housing located. ... My CAT 3412 Marine Engine fuel consumption is way to high approx 24 gph, ... I have a 1987 fr8 with a 3406 cat. My hot water light and buzzer is coming on before the hot water fan switch comes on to start the rad fan.

Working on a cat c18 marine engine where is the thermostat ...

An engine's thermostat (or "temperature regulator") regulates the jacket water temperature to keep the engine running at a normal operating temperature, usually around 185 degrees F. If the jacket water becomes too hot, the thermostat "opens" to allow cold water in from either the keel cooler or heat exchanger.

Cat | Why Do I Need to Replace My Engine's Thermostat ...

The water coolant thermostats, on a Caterpillar C-12 diesel engine, are located on the front of the engine. Follow the water supply hose from the radiator to the engine. share with friends.

How many water thermostats are on a Cat C-12 engine?
