BAJA SPA COVERS

The radius (R) measurement is for spas with rounded corners. This measurement can be taken using a carpenter's square or two straight edges (see illustration). Always give the radius (R) measurement in inches rounded down to the nearest inch. Covers with one or more corners cut off at a forty-five degree angle will require some or all of the C1, C2, C3, and C4 measurement.

Baja SporTub Series Operations Video

There is something about a hot tub that just promotes intimacy and communication - perhaps it's the hot water; maybe it's the massage or the gentle sound of moving water or perhaps just the fact that since hot tubs are not large - it's simply a more intimate space. Whatever it is, a hot tub promotes relaxed, genuine conversation.
