A four-stroke engine is a type of internal combustion engine that has a four-step thermodynamic cycle, and contrasts with a two-stroke engine. An outboard motor may contain one or the other type, but a four-stroke engine such as the Yamaha 225 may be less prone to overheating under conditions of heavy use, among other advantages.

Changing the impeller on your Yamaha 225-horsepower four-stroke outboard motor is "must-do" maintenance every three years, according to Yamaha Motor. Changing the impeller not only allows you the opportunity to perform required maintenance on the water pump, but also to check the general condition of the lower unit.
