That depends upon what you mean by "start", but if you are just curious about cranking the engines, then that is ridiculously quick and easy. In fact, what I'll describe below is pretty much how every modern turbofan engine is started. I'll descri...

How to start a Boeing 747 - Quora

The engine should start up and then idle back. Don't you just love that sound! Repeat this process for engine 1. Pull the Start Selector, wait for N2 to reach the magenta line, set Fuel Control to RUN. Now do the same thing for engines 2 and 3. As soon as you get the hang of it, you can start engines 1 & 4 and engines 2 & 3 simultaneously.
