The BlackBerry Bold 9900 is the first BlackBerry to run on a processor faster than 1 GHz, use a near-field communications antenna, enable mobile hotspot, and raised the bar for BlackBerry display resolution.

BlackBerry Bold 9900 | CrackBerry.com

Also I would like to know which movie resolution would be optimal for the 8800? I guess the screen will be bigger than the Pearl's but what would it be? 320x240 like 87xx series isn't that good tip because RIM must be on the top of what's possible as the BlackBerry's screen was always one of the best mobile screens on the market.

BlackBerry 8800 Screen Resolution? - BlackBerry Forums ...

I've had my new PB for a few days now and I notice that the screen resolution isn't bad but it isn't great either. It seems a little grainy but the backlight is nice and bright. I think my problem is that I'm comparing to the crystal clear 9900. I know very little about tablets so maybe they're all like this. Is this pretty normal or could there be an issue with mine?
