This BMW M20 engine was offered to me and the deal was too good to pass up. Supposedly it was taken from a parts car with 88k miles. It's from a 1988 325is. I know it's an 88 because it has the later style coolant system with the metal coolant pipe across the front. And it's an "is" because it has a oil filter housing set up for an oil cooler.

In my last installment, I told you a little bit about the BMW M20 motor I recently purchased to rebuild for the Spec E30 race car.As it is a spec car, it must be built to factory specifications. Before digging in too deeply, I consulted with fellow Spec E30 racer and owner of Offset Motorwerks in Southern California, Mitchell Dyche. A little tutelage from an experienced engine builder would go ...

The existing parts are likely the original parts that were originally assembled with this engine back in the 80s. Once the block and parts are all collected, you can begin the assembly process, which for me, began with a coat of fresh white engine paint for the block. You will want to paint the block to protect it from rusting after its been ...
