The kick tolerance of well killing by the Driller's Method K d was compared with that by the Engineer's Method K e. If both K d and K e are more than zero, the influx volume at the moment hasn't reached the maximum allowable influx volume yet and there is still some space to allow the well killing operation by using these methods. Therefore, the selection of the method with great kick tolerance ...

Iran is an energy superpower and the Petroleum industry in Iran plays an important part in it. In 2004 Iran produced 5.1 percent of the world's total crude oil (3.9 million barrels (620,000 m<sup>3</sup>) per day), which generated revenues of US\$25 billion to US\$30 billion and was the country's primary source of foreign currency. At 2006 levels of production, oil proceeds represented about 18.7 percent ...

Abstract. In clinical orthopaedics, an approach based on biomechanical knowledge is a prerequisite. Studies on load distribution, gait analysis and implants have been extensively published aiming to aid clinicians in the processes of decision making and evaluation of treatments prior to using them in clinical practice.

World energy consumption is the total energy used by the entire human civilization. Typically measured per year, it involves all energy harnessed from every energy source applied towards humanity's endeavours across every single industrial and technological sector, across every country. It does not include energy from food, and the extent to which direct biomass burning has been accounted for ...
