I'd not conclude that a textbook must be good, because it's written by a Nobel laureat, but in the case of Weinberg it's true. All his textbooks are just very well written with a clear exposition of the subject in a deductive way, which I myself always prefer compared to inductive expositions of a ...

Steven Weinberg promises "1. This point involves too many issues to be treated adequately here. The author's views on the present state of quantum mechanics are spelled out in detail in Section 3.7 of Lectures on Quantum Mechanics, to be published." Does anyone know when this will be published (or the publisher)- any pre-announcements or anything?
