The Merc. XR6 is one of the most reliable outboard engines ever built. They first built the carbureted 150 Mercury engine over 30 years ago and it has proved to be a very solid engine. I have never tried to compare gas mileage with other similar engines, but as I am sure you already know they like gas. All in all a very reliable, powerful engine. papa

I have a Mercury 150 XR6 that has had a problem with overheating. The engine will overheat at anything above idle, but will cool back down once on plane and running about 45-50 mph. Reduce speed and it heats up again. This problem has become progressively worse over a two year period. I have replaced impeller three times and housing twice.
