The use of "G" to denote twin cam engines was decided on in 1971, with the renaming of the 10R into 8R-G. Before, twin cams had received new numerical codes. Note: Toyota, in 1987, began assigning dual letter engine codes to some of the "engine family" categories in some engine lines, particularly six cylinder models. This can create potential ...

Changed the fuel filter and now won't start. It seems that I have to bleed air for fuel system. Filled filter with diesel but that didn't quite do it. From the searches I've done it seems that I have to loosen a fuel line from pump to atleast one cylinder , crank engine. Not sure at that point if tighten back up when starts firing. Seems like a tricky move tightening up tubing leaking fuel on ...

Bought a so called reco engine that had only done 30k and it lasted 2k, Valve seats collapsed and took out No. 1 Piston and liner. Now my problem, It is all back together and trying to start it, Has been fitted with new liners, pistons and head. All was done in the Toyota Coaster so never removed engine. The fuel pump is inline.
