*It is your no question own become old to show reviewing habit. among guides you could enjoy now is c7 cat engine problems below.*

### **C7 Cat Engine Problems**

CAT & Freightliner are known to use any excuse not to honor the C7 warranty since they stopped making highway rated motors 3 years ago. The engines produced from 03' to 06' were known to have many issues as CAT changed manufacturers that produced many engine parts. 36,000 miles isn't a lot of mileage, but CAT & Freightliner don't always go by mileage they go by hours on the engine as well.

C7's are good engines. However, the fuel pumps can fail and will put metal into the injectors. Cat would suggest full injector replacement and fuel pump, as well as cleaning out the fuel rail inside the head. This most often happened after they were ran out of fuel. It is imperative to be 100% clean when dealing with this fuel system.

The C7.1 marine propulsion engine is ideal for recreational boating applications, specifically smaller vessels and motoryachts ranging from 25 -60 feet in size. The engine features a common rail fuel system enabling optimum combustion and low emissions. The engines provide noticeably quiet operation due to reduced combustion noise through advanced electronic control.

Additionally, that an upgraded Huel pump was installed in models built around 2005-2007. If CAT was aware of issues with the earlier Huel pumps, why wasn't there a recall? It annoys the hell out of me that those of us with the 2004 and earlier models of the CAT 330 C7 engines were not notified. Hopefully, my problem has been resolved.
