Vsc Check Engine Light

So this happened to me last week -- the check engine light VSC/TRAC off came on in my 2005 Rav4. I researched a little bit, replaced the gas cap, disconnected the battery for 30 seconds to reset everything, and all of the lights were gone. Then I drove it for about another 400 miles or so, and now all the lights have come back on.

What causes check engine and VSC lights to come on?

When the Check Engine light comes on, the VSC/Trac light(s) are also set, which turns these systems off. This is a self-preservation mechanism, in case the reason the Check Engine Light is on can harm or effect the VSC/Trac systems. So- fix the reason why the Engine Light is on, and the VSC/Trac system(s) will come back online.

What causes a VSC light to come on? - JustAnswer

The Toyota VSC light comes on when there is a malfunction with this VSC system. Sometimes this light may be accompanied with an ABS light, Traction Control Light or even a Check Engine Light. If you have this VSC light illuminate on your Toyota, my recommendation would be to first get your computer scanned for codes.
