Outboard Engine Wiring | TackleReviewer

It's all the same as automotive 12 volt wiring, with the exception of having to run all grounds back to the battery via the above mentioned terminal strip. Most boats simply use red for positive and black for negative for each accessory. Color coding only comes into play for engines and instrumentation, until you get into the newer big yachts.

Typical wiring schematic/diagram | Boat Design Net

How to Wire a Marine Fuel Tank Gauge by Will Charpentier Wiring a fuel gauge is much the same as wiring any other gauge on your boat: one wire comes from the ignition to the instrument, one wire comes from the sensor to the instrument, one wire comes to the instrument light and one wire from the instrument goes to the boat's common ground
