Chapter - introduction, July 14, 2015. I have started reading a book - How to Prove it (author: Daniel J. Velleman). I shall be posting its solutions from this post onwards, each titled with corresponding chapter.

### **How To Prove It - Introduction - inchmeal.io**

How to Prove It: A Structured Approach. The author shows how complex proofs are built up from these smaller steps, using detailed 'scratch work' sections to expose the machinery of proofs about the natural numbers, relations, functions, and infinite sets. To give students the opportunity to construct their own proofs,...

### **How to Prove It: A Structured Approach - Google Books**

How to Prove It: A Structured Approach. Contains solution for the Velleman's book. The reason I have started studying this is to ultimately study type theory. Feel free to raise issue if you think a proof is wrong or if it needs some clarification. Pull requests and contributions are welcome.
