I had the same problem & it took all my time. It was wierd since the same find/replace keys worked in all applications even in Visual Studio 2003; but not in Visual Studio 2005 alone. I uninstalled the refactoring software I was using and reinstalled Visual Studio 2005 Service pack 1 & still it didn't work.

Dilution Calculations. Previously in this lesson, the concentration calculations that we have done essentially involved preparing a solution from scratch. We started with separate solvent and solute and figured out how much of each you would need to use. Quite often, however, solutions are prepared by diluting a more concentrated solution.
