We do our best to update these BMW check engine light codes as frequently as possible. If you find one missing let us know and we we'll add it immediately! Please use the form on our Contact Page to get in touch with us. We certainly understand how frustrating it can be to look for a code definition and have it not online when you need it.

Most Complete List For BMW Check Engine Light Codes

-Fuse 15 (E39) or fuse 30 (E46) is blown. This can be due to a faulty oil level switch which can cause the fuse to blow. If this happens a loss of input to EWS from the Transmission Range Switch can occur. Remedy: Check fuse 15 and fuse 30 if they are both blown then replace the fuses (7.5A). Start the engine.
