Vauxhall Corsa 2004 Engine Management Light - 3babak.com

For the condensed version, scroll down to the bottom :-p Going back about three and a half years ago, I bought a 1.2 petrol Vauxhall Corsa SXI+, second hand, 56 plate with 9k miles on the clock. It has done me very well over the past few years, I've done about 50k miles in it since I had it, so now the clock is up to 60k miles. The only thing I've ever had to do is get a new engine - I know ...

Vauxhall Corsa (Opel Corsa) 2011 Management light on due to misfire on cylinder 1 To fix the problem change all four spark plugs and coil pack. Once thats done plug diagnostic tool EOBD to reset ...

Vauxhall corsa engine light issue

The other day, I was driving to a friends house and whilst being on a dual carriageway, I was doing 60mph, driving nice and sensible then for no reason the Engine Management Light came on and has stayed on since then. The car has been running perfect all the while before the light came on and still runs exactly the same now even with the light on.

Stupid Engine Management Light?!?! Any ... - corsa-c.co.uk

I have a Corsa 1.4 2004 54 plate. The engine management light started flashing and the car wouldn't start anymore. My mechanic un-plugged throttle body, car start and runs fine with no engine light but obviously you can't drive or rev over 1700 rpm. As soon as you plug in throttle body, it happens again.

Dashboard warning lights and their meanings explained with pictures for the Vauxhall Corsa.
Dashboard light engine management warning symbols list

Vauxhall Corsa Dashboard Warning Lights and meanings ...

Vauxhall looked the fault yesterday.....turns out it's to do with the recirculating of fumes from the petrol tank into the combustion cycle. There is a slight leak by a valve apparently so more air is getting in causing the fault light to appear (which had disappeared earlier in the week) and think that the mixture is too 'lean'.

Opel / Vauxhall engine management light (DIY check engine code reader)

Driving a 1 litre V Reg Corsa at the weekend the engine management lamp lights up at 70mph when you try to accelerate hard (ie flooring it!)(On motorway in outside lane to overtake..), the engine loses a bit of power and won't accelerate - in fact it slows slightly. The warning light goes off at about 60mph, and then you can slowly accelerate again.
