Studies show that toddler car seats reduce the risk of injury in kids by 70-80% and of death, 28%, in comparison to children wearing only a seatbelt. Car seats support the children's body, spread crash force over a wider area and prevent injury to vital organs like the head, neck and spine in the event of any untoward incident.

Britax Marathon 70 Review – Part I. The new Marathon 70 has a deeper seat pan so it will provide more leg room/thigh support than the original. The outer crotch strap position measures 8" so it offers considerably more room in that area than the original model did. The side walls are deeper and wider too so that's a nice improvement as well. I...
