It presupposes not only experience in the troubleshooting and repair of gasoline engines, but experience with marine engines.

**Outboard Motor Mechanic Certification | Chron.com**

The internal workings of a diesel engine rarely fail—pistons, valves, shafts—and even if they were to fail, there is almost nothing boat owner could do about it except to call a repair shop. That's why this course focuses solely on components that are 1) likely to go wrong and 2) repairable or preventable by a boat owner.
