*Comprehending as skillfully as understanding even more than other will provide each success. next-door to, the declaration as capably as acuteness of this c12 cat engine problems can be taken as competently as picked to act.*

### **C12 Cat Engine Problems**

cat c12 problems ..... cam follower tore up cam, now ... We have a 2004 T800 KW that now has a Cat C12 engine with hole in the block and cracked head after only 270,000 miles. Can the C12 be replaced with a 2007 or newer C13 to make it CARB compliant?

### **Cat c12 problems .....cam follower tore up cam, now ...**

I used to drive a day cab columbia with a c12 hauling trash out of nyc, the truck would run 24 hrs a day for 5/6 days a week. They took a lot of abuse and kept on running, didnt get good fuel mileage or good maintenance, and used alot of oil, but I think if one was properly taken care of it would a good motor

It is possible, but "bridge engines" released in Oct of 2002, so unless the OEM truck builder had a big inventory , of CAT engines, setting in their warehouse, My best guess is that a 2003 truck likely has C-12 "MBL" serial number prefix = Bridge Engine. If it is a "2KS" prefix, than it is a Pre-2003 engine.

I'm in the process of buying a Peterbilt 387with a CAT C-12 engine, is this a good engine?? My current truck has a 3406 E and I would like to know a bit more about this C-12. I hope to hear from drivers with the same engine. The truck is a 2003 Peterbilt 387 it has a rebuilt engine by Cat with a 3 year warranty. It has 430hp and 10 spd.

Wow what a lot of problems. Got no solution for you, just knows what works for us. We have a C12 engine 450000 miles on the engine, we use nothing but Cat filters,anti freeze,Cat litter (jk), we don't often lug it up mountains, and it gets totally awesome mileage, no drips, leaks, or other undesirables.

Caterpillar claims that the primary failure mode for the C12 from overspeed is valve/piston failure when the Jake is activated. I have heard from several RVers who have destroyed their engines because of "valve problems." Caterpillar claims they have used the stock C12, with a different head, for racing, and turned 3200 rpm.

I have one truck with a C12, a 1998 Pete 378 13 spd transmission. Seems to be a good engine. No problems with the motor, some with the Pete truck itself (wiring issues). It doesn't burn any oil, and its been quite a while since a rebuild. The Jakes are the best I have seen in a Cat motor.

I have a C-12 Cat, set at 410 hp, and 1550 tq. I would like to get a little more out of it. From Cat

they were available at 430/1650, and they want \$800 to turn it up. Pdi ecm tune is around \$2200. I have a Pdi shop near here. Even though it is triple the cost I think the ecm tune will give me better fuel economy, along with the power.

I had the same problem with 2003 Cat 3196 engines (brother to the C12). Caterpillar replaced many parts to include the ECU and the turbocharger. My engine also ran fine and looked normal with the diagnostic computer hooked up. The problem was finally solved when the "fly by wire" control at the helm station was replaced.
