Value Analysis (VA) and Value Engineering (VE): Definitions and Benefits Essential Product Development for Engineers Value Engineering. Value Engineering (VE) is concerned with new products. It is applied during product development. The focus is on reducing costs, improving function or both, by way of teamwork-based product evaluation and analysis.

### **Value Analysis and Value Engineering (VA/VE): Definitions ...**

Value analysis means to assess product functions and value-to-cost ratios, and to find opportunities for costs reduction. Value Engineering – VE. As we said above, Value Analysis is the application of several techniques to identify the functions of a product (or service) and provide them at the lowest cost.
