York YT Centrifugal Specs - HVAC/R engineering - Eng-Tips

A chiller we have been working on this week....It had problems. We were told by the technicians on site that it was "losing oil" as there was no puddle on the floor we deduced that it was in the evaporator and logged. The high approach and slightly lower back pressure suggested this. Discharge superheat looked OK at 22degrees F. There was no charge of refrigerant in the machine, oil was at the ...
