Viking Boats by lizbiz2 | Teaching Resources

Viking longships were used in battle, and were long, light, and slender so they could move around quickly. They had a square sail and a mast, but could also be rowed if there was no wind. Depending on its size, a longship had 24 to 50 oars. The prow, at the front of the ship, was often adorned with a dragon or snake head.

Viking Longboat | Facts About Viking Boats | DK Find Out

The Leif Ericson Viking Ship, Inc. is a 501(c) 3 nonprofit educational organization dedicated to the study, education and promotion of the fact that Leif Ericson was the first European to set foot upon and explore the North American Continent and of Vikings in general, their times and travels throughout the world.

The response that came back was "that they were all equal!" At the end of the Viking age, Kings set up a levy system for home defence, where everyone in a town or village was responsible for the upkeep of a "local" ship; it's thought that one of the Viking ships found blocking the entrance to Roskilde harbour was one of those.
