### **Bose 802 Series II Loudspeaker - Walker Sound**

now as for the bose 901's 802's 402's which is what the bose controller probably was intended for these are all very hungry for high current power they want a lot of wattage, and if they aren't powered adequately they will cause the amp to clip out instead of playing low bass and the rest of

the sound would just be otherwise lacking .
