Morning All, I'm trying to find out some info on the following. I have an old motor boat I'm trying to get restored. The engine is a Volvo Penta and has B20 stamped on the block. I've had a look at a manual off of ebay which covers all engines from 1961 to 91 but all the engines mentioned are AQ serial numbers, does anyone know if there is a conversion between B20 and an AQ reference number.
