How do you winterize a volvo penta marine engine - ASAP

Question: How do I winterize my boat that is equipped with the Volvo Penta 5.0 GL Marine Engine? I've heard that I can just drain the engine and manifolds but don't need to do anything else. Is this correct? Answer: While draining the engine and exhaust are important aspects of the winterization procedure they certainly aren't the only aspects of boat winterization to be concerned with.

How to Winterize a Volvo Penta 5.0 GL Marine Engine ...

By properly preparing your Volvo Penta engine for a winter of being packed away and not used, you can actually prolong its life considerably. If you choose to store your boat at home when it's not in use, you can actually take steps to winterize the engine yourself (saving you paying someone else to do...

How To Winterize A Volvo Penta Engine | Marine Boats ...

How to Winterize a Volvo Penta 5.7L GXi/SX True boat winterization entails much more than just draining the water. Boat Winterization includes draining the engine, but then refilling the engine with propylene glycol to inhibit corrosion, fogging the engine, draining the sterndrive, stabilizing the fuel system, checking the water pump impeller, etc.

Winterize / Drain Motor on Volvo Penta 5.0 gxi

You've kept your marine diesel mains and generators running well all season, and now the grip of winter is near. But your work isn't done. To make sure these engines perform well next season, take these six important steps to properly winterize your diesel systems before giving them a long ...

How to Properly Winterize a Marine Diesel Engine | Boating ...

Fog the engine with fogging oil. I like to do this when the boat is on the trailer but still in the water. If the boat is out of the water, then run it on a muff. Having two people makes it easy to fog the engine. One sprays the fogging oil while the engine is running and the other then shuts off the engine after 5-10 seconds of spraying.

BoaterEd - How hard is it to winterize Volvo Penta 5.7 I/O

If your boat is a sterndrive, West Marine sells a do-it-yourself winterizing kit to make this job simpler. Begin by connecting your garden hose to a faucet, hooking it to a motor flusher, placing this over the raw water intake, turning on the freshwater and starting your boat's engine.
