I have Varian Star software, which is capable to control GC, and serial port board installed in GC. Unfortunately, I can't buy proper cable and I am not sure, that I don't need additional ACD boards to record signal directly in software. I can't find this information in manuals and our local Bruker representatives could not help me also.

I'm looking for a place to acquire Star Chromatography Workstation Software version 5.41 or better. I'm running an old Varian GC 3400, autosampler 8200 CX and Saturn 3 MS system. Varian can't help. Adron Systems can't help. It should be possible to buy (or at least download for free?) 10 year old software?
