A rubber band (also known as an elastic band, gum band or lucky band) is a loop of rubber, usually ring shaped, and commonly used to hold multiple objects together. The rubber band was patented in England on March 17, 1845, by Stephen Perry. Most rubber bands are manufactured out of natural rubber or, especially at larger sizes, elastomer, and are sold in a variety of sizes.

Rubber band - Wikipedia

The BS-4A is an economically priced metal cutting band saw with a robust four-legged stand cross braced with a under tray and built-in mitre cutting capability.
