The D16 is 1.6-liters four-cylinder D-series engine. The most mass production engine is the D16A. This engine is a ubiquitous engine for Civic model as well as the smaller D15B engine. The D16 engine is very similar to the D15. The D16 shares the same cylinder bore, but it has a more significant stroke to reach more displacement.

ZC ENGINE INFO The term ZC engine is used sort of generically to describe the 88-91 CRX or Civic DOHC 1.6 liter. In reality, there are a bunch of different versions of this engine. They are both single and dual overhead cam and come both fuel injected and carbureted. The only consistant thing about them is that they are 1.6 liter non-VTEC engines.
