For those of us who have been using audio and music gear, much of which has come from Japan, for 25 years or more, this is like shooting fish in a barrel. There were so many bad manuals that it's hard to pick out a worst one, and the bad ones are simply forgettable. The most amusing service manual I've ever read was for my 1972 Datsun 240Z.

We've all, at one time, had to put together or install a product by using an instruction manual. I'm conducting a poll as research for my company. We create industrial control panels and installation guides. The person who drafts and writes the copy for our instruction manuals is a wonderful draftsman but his writing skills are well...less than perfect.
