We bought a Bauhn Ereader from Aldi on special we will be taking it back as far as I am concerned it is useless. As previous review said it is not compatible with Adobe digital edition as it says it is in the manual. Total waste of money and time. I too have a Bauhn Actios eBook reader.

I have a Bauhn "Actios" eBook Reader and even though I have items in the "Explorer" part of the device, I am unable to read anything in the eBook section. It tells me that there are NO Files. my device has been authorised but I just can't open anything to read. I looked for the "activation.xml" file but can't find it. I am using Windows XP.

The on going saga continues :) What does MediaLib Update mean on a Bauhn Ereader? I keep getting a box saying Updating MediaLib which disappears after a few seconds. My Ereader also says that it has Local memory size of 3.674G (used) and says it has 3.676G (total). Does anyone know if this could be the problem with opening books to read?
