Barber-Colman Network 8000 Enhanced Driver - Siemens

The old Invensys / Siebe / Barber Colman Network 8000 had pretty solid hardware. They did have software upgrades for Network 8000. I work with the other TAC products (Andover, Vista and I/NET) as well as Tridium, Honeywell and Solidyne, so my only experience with Network 8000 was the same as you, which was as an end user 15 years ago.

I am working on a Barber-Colman Network 8000 system, there are two 120 ton Trane chillers and two air handlers. The system has one GCM and two LCM each controlling a air handler and chiller. Both LCM have a blank screen, it started with one LCM with a blank screen and two days later the other LCM went blank. I can push the reset button on each the screen will show that each test has been passed.
