Hello, I recently bought 2 Yamaha Waverunner GP800R jet skis. I took them out for around 3 and a half hours a few days after I bought them with some friends. It wasn't until I was washing the salt water off that I had noticed both drain plugs out on only one of the jet skis. I took off the cover to see maybe 3-4 inches of water beneath the engine.

I'm looking to replace my piece of junk Polaris PWC with a Yamaha. There are several of the GP760 and GP800 models in good shape for sale in my price range. I'm looking at ones that are mostly 1999 to 2001 models. I know the 800 has 120 HP vs. 90 HP for the 760. What I'd like to know is if the 800 is going to be less reliable. I would rather have more reliability than more HP.
